**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**IMPORTANT**

**BEFORE USING DUPONT™ LANNATE® SP, READ AND FOLLOW ALL APPLICABLE DIRECTIONS, RESTRICTIONS AND PRECAUTIONS ON THE EPA-REGISTERED LABEL.**

This bulletin contains new or supplemental instructions for use of this product which do not appear on the EPA-registered package label. Follow the instructions carefully.

This labeling must be in the possession of the user at the time of pesticide application.

DuPont LANNATE® SP Insecticide is recommended for control of thrips on nectarines and peaches in New Jersey.

The Restricted Entry Interval (REI) is 3 days for nectarines and 4 days for peaches.

**HOW TO USE**

Apply 1/2 to 1 lb LANNATE® SP per acre. Apply in sufficient water to give thorough coverage; aerial minimum of 10 gpa.

**SPRAY PREPARATION**

Spray equipment must be clean and free of previous pesticide deposits before applying LANNATE® SP.

Fill tank 1/4 to 1/2 full of water. Add LANNATE® SP directly to spray tank. To open the outer container lift the flap; do not cut the outer container to open. Invert the outer container so the enclosed water soluble packet falls directly into the spray tank. Do not touch the water soluble packet with your hands. Do not open, rip, tear, cut, or perforate the inner water soluble bag. Mix thoroughly to fully dissolve the insecticide; once dissolved continued agitation is not required. Use mechanical or hydraulic means; do not use air agitation.

For product information call 1-888-6-DUPONT

© 2005 E. I. du Pont de Nemours and Company, Agricultural Products, Wilmington, Delaware 19898

Be sure the soluble packet is completely dissolved before adding any other ingredients. Spray mix should not be stored overnight in spray tank.

Do not apply more than 3 lbs LANNATE® SP per acre/crop on nectarines; do not apply more than 6 lbs LANNATE® SP per acre/crop on peaches.

Do not apply more than 3 applications a season on nectarines; do not apply more than 6 applications a season on peaches.

Do not apply within 1 day of harvest for nectarines and within 4 days of harvest for peaches. (Replaces H-63919)

Do not apply this product through any type of irrigation system. R-541 041806 060106

## ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish, aquatic invertebrates and mammals. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas.

Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark.

Do not contaminate water when disposing of equipment washwaters or rinsate.

This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

If applied to peaches from April 15 to May 15, or when the crop is in its flowering stage, apiarists (beekeepers) within one mile of the application site must be notified 36 hours prior to application. Obtain the beekeeper notification list from the New Jersey Pesticide Control Program.

This chemical is known to leach through soil into groundwater under certain conditions as a result of label use. Use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

This chemical can contaminate surface water through spray drift. Under some conditions, it may also have a high potential for runoff into surface water for several days to weeks after application. These include poorly draining or wet soils with readily visible slopes toward adjacent surface waters, frequently flooded areas, areas overlaying extremely shallow groundwater, areas with in-field canals or ditches that drain to surface water, areas not separated from adjacent surface waters with vegetated filter strips, and areas over-laying tile drainage systems that drain to surface water

Read the Limitation of Warranty and Liability on the Section 3 Federal product label before buying or using THIS product. If terms are not acceptable, return the unopened package at once to Seller for full refund of purchase price paid. Otherwise, use by Buyer or any other User constitutes acceptance of the terms of the Limitation of Warranty and Liability on the Section 3 Federal product label.
