For Distribution and Use only in the States of Connecticut, Delaware,
Maine, Maryland, New Jersey, New York, Pennsylvania,
Rhode Island, Virginia, and Vermont

Tank Mix of Python WDG Plus FirstRate

ATTENTION

- [†]This recommendation is made as permitted under FIFRA 2(ee) and has not been submitted to or approved by the EPA or state lead pesticide agency.
- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This product bulletin must be in the possession of the user at the time of application.
- Read the label affixed to the container for Python WDG before applying. Carefully follow all precautionary statements and applicable use directions.
- Use of Python WDG according to this product bulletin is subject to all use precautions and limitations imposed by the label affixed to the container for Python WDG.

Directions for Use

Python* WDG herbicide can be tank-mixed with FirstRate* herbicide for broad spectrum weed control in soybeans. The tank mixture can be preplant surface applied in minimum or no tillage systems, preplant incorporated, or applied as a preemergence treatment.

Broadcast application rates:

Product	Application Rate
Python WDG	0.8 - 1.33 oz/acre
FirstRate	0.3 - 0.6 oz/acre

Always read and follow label recommendations, including applicable use directions, precautions and limitations of all products, whether used alone or in a tank mix. When tank mixing, follow the most restrictive limitations on the label of each product used.
