

SAFETY DATA SHEET

DREXEL PAS-800™

Section 1: Material Identification

Product Name: Drexel PAS-800™

GHS product identifier: Nonionic surfactant, acidifier

Company: Drexel Chemical Company
1700 Channel Avenue
Memphis, TN 38106

Recommended use: Pesticide adjuvant, penetrant, acidifier

Recommended restrictions: None available

Synonyms: None available

Emergency Telephone Number:

ChemTrec
Tel: 1-800-424-9300

Drexel Chemical Company
901-774-4370

Section 2: Hazard Identification

(As defined by the OSHA Hazard Communication Standard, 29)

GHS classification:

Health hazards: Skin corrosion/irritation Category 1A
Serious eye damage/irritation Category 1B

GHS label elements:

Signal word: Danger

Hazard statement: Causes severe skin burns.
Causes serious eye damage.

Precautionary statement:

Prevention: Avoid breathing dust/fume/gas/mist/vapor/spray.

Wash thoroughly after handling.
Do not eat, drink or smoke when using this product.
Wear eye protection, face protection, protective clothing, protective gloves.

Response: **IF SWALLOWED:** Rinse mouth. Do not induce vomiting. Call poison center or doctor/physician.
IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse.
IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call POISON CENTER/doctor.
IF IN EYES: rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor.

Storage: Store in closed container.

Disposal: Dispose of contents/container in accordance with local/regional/national/international regulations.

Specific hazards: None available

Section 3: Composition Information

| <u>Components</u> | <u>CAS No.:</u> | <u>% By Wt.:</u> |
|---|-----------------|------------------|
| Active Ingredient: | | |
| Phosphatidylcholine, methylacetic acid, Alkyl polyoxyethylene ether | Mixture | 80.0% |
| Inert Ingredients: | N/A | 20.0% |

Section 4: First-Aid measures

Eye Contact: Immediately flush eyes with water; remove contact lenses, if present, after the first 5 minutes, then continue flushing eyes for at least 15 minutes. Call poison control center or doctor for treatment advice.

Skin Contact: Immediately flush skin with water while removing contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse.

Inhalation: Move person to fresh air; If not breathing call 911 and give artificial respiration. Call poison control center or doctor for treatment advice.

Ingestion: If swallowed, seek medical attention. Do not induce vomiting unless directed to do so by medical personnel.

Section 5: Fire Fighting Measures

Suitable extinguishing media: Water, CO₂, dry chemical

Specific hazards arising from the chemical: Can be dangerous when exposed to extreme heat and flame. Do not breathe mist/vapors/spray.

Protective equipment and precautions for firefighters: Assure self-contained breathing apparatus is worn. Fight fire from upwind. Prevent runoff if possible.

NFPA: **Health:** **Flammability:** **Reactivity:**

2

1

0

(Rating: 4-Extreme, 3-High, 2-Moderate, 1-Slight, 0-Insignificant)

Section 6: Accidental Release Measures

Personal Precautions: Isolate area. Keep unnecessary and unprotected personnel from entering the area. Refer to Section 7, Handling, for additional precautionary measures. Keep upwind of spill. Spilled material may cause a slipping hazard. Ventilate area of leak or spill. Use appropriate safety equipment. For additional information, refer to Section 8, Exposure Controls and Personal Protection.

Environmental Precautions: Prevent further leakage or spillage if safe to do so. Do not contaminate water.

Methods for containment: Stop the flow of material, if this is without risk. Collect and dispose of spillage as indicated in section 13. Prevent entry into waterways, sewers, basements or confined areas.

Methods for cleaning up: Pick up spills with absorbent material and place in suitable properly labeled containers.

Section 7: Handling and Storage

KEEP OUT OF REACH OF CHILDREN

Handling: Wash hands and other exposed areas with mild soap and water before eating, drinking, or smoking and again when leaving work. Handle in accordance with good industrial hygiene and safety procedures

Storage: Store in a dry place. Store in original container. Do not store near food, foodstuffs, drugs or potable water supplies.

Section 8: Exposure Controls / Personal Protection

Occupational exposure limits: TLV: 5mg/m³

Engineering controls:

Use engineering controls to maintain airborne level below exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, use only with adequate ventilation. Local exhaust ventilation may be necessary for some operations.

Personal protective equipment:

Eye/Face Protection: Use chemical goggles

Skin Protection: Use protective clothing chemically resistant to this material. Selection of specific items such as face shield, boots, apron, or full body suit will depend on the task. Safety shower should be located in immediate work area. Remove contaminated clothing immediately, wash skin area with soap and water, and launder clothing before reuse or dispose of properly.

Hand protection: Use gloves chemically resistant to this material. Examples of preferred glove barrier materials include: Neoprene, Nitrile/butadiene rubber ("nitrile" or "NBR"), or Polyvinyl chloride ("PVC" or "vinyl").

Respiratory Protection: Respiratory protection should be worn when there is a potential to exceed the exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, use an approved respirator. Selection of air-purifying or positive-pressure supplied-air will depend on the specific operation and the potential airborne concentration of the material.

Section 9: Physical and Chemical Properties

| | |
|---|------------------------------------|
| Physical state: | Liquid |
| Color: | Yellow to brown |
| Form: | Liquid |
| Odor: | Strong vinegar like |
| Odor threshold: | Not available |
| pH: | 3-4 |
| Melting/freezing point: | 35°F |
| Boiling point: | >212°F |
| Flash point: | >200°F (Non-combustible) |
| Evaporation rate: | Not available |
| Flammability: | Not available |
| Flammability limits in air, lower: | Not available |
| Flammability limits in air, upper: | Not available |
| Vapor pressure: | Not available |
| Vapor density: | Not available |
| Relative density: | 0.99-1.03 g/mL (8.25-8.58 lbs/gal) |
| Solubility: | Emulsifies in water Not available |
| Octanol/water coefficient: | |
| Auto-ignition temperature: | Not available |
| Decomposition temperature: | Not available |
| Viscosity: | Not available |

Section 10: Stability and Reactivity

| | |
|--|---|
| Chemical stability/instability: | Stable at typical use temperatures. |
| Conditions to avoid: | Avoid highly alkaline conditions, extreme temperatures and open flames. |
| Incompatible materials: | Strong oxidizers |
| Possibility of hazardous reactions: | Will not occur |
| Hazardous decomposition products: | None known |

Section 11: Toxicological Information

Toxicology data:

Components:

Phosphatidylcholine, methylacetic acid, polyoxyethylene ether

Test results:

Acute oral LD50 (rat): >5g/kg

Acute dermal LD50 (rabbit): >5g/kg

Routes of exposure: Skin contact. Eye contact. Ingestion.

Acute effects: Severe skin burns. Severe eye damage. Harmful if inhaled.

Sensitization: No data available

Chronic effects: No data available

Carcinogenicity: No data available

Mutagenicity: Non-mutagenic for bacteria and/or yeast.

Reproductive effects: No data available

Tetragenicity: No data available

Epidemiology: No data available

Skin corrosion/irritation: Causes severe skin burns

Serious eye damage/irritation: Causes severe eye damage

Specific target organ toxicity – single exposure: Not classified

Specific target organ toxicity – repeated exposure: Not classified

Other information: Not available

Section 12: Ecological Information

Ecotoxicological data:

Components:

Phosphatidylcholine, methylacetic acid, polyoxyethylene ether

Test results:

LC50 Algae: No data available

EC50 Daphnia: 190mg/L

LC50 Fish: 130mg/L

Persistence and degradability: Not established

Bioaccumulation: Not established

Mobility in soil: Not available

Other adverse effects: Avoid release to open bodies of water.

Section 13: Disposal Considerations

Disposal methods: Dispose of in accordance with label instructions and all applicable regulations.

Contaminated packaging: Dispose of in accordance with applicable federal, state and local regulations.

Section 14: Transport Information

In accordance with ICAO/IATA/DOT/TDG:

UN number: Not regulated

UN proper shipping name: Not regulated

Transport hazard classes: Not regulated

Packing group: Not regulated

Environmental hazards: Not regulated

Transport in bulk: Not regulated

Special precautions: Not available

Freight Description: Agricultural Spray Adjuvant, Liquid, N.O.S.

ERG Guide No.: 171

Section 15: Regulatory Information

International inventories:

| TSCA: | Complies |
| EINECS/ELINCS: | Complies |
| ENCS: | Complies |
| IECSC: | Complies |
| KECL: | Complies |
| PICCS: | Complies |
| AICS: | Complies |

Superfund Amendments and Reauthorization Act of 1986 Title III (Emergency Planning and Community Right-to-Know Act of 1986) Sections 311 and 312:

| | |
|------------------------------------|-----|
| Immediate (Acute) Health Hazard: | Yes |
| Delayed (Chronic) Health Hazard: | No |
| Fire Hazard: | No |
| Reactive Hazard: | No |
| Sudden Release of Pressure Hazard: | No |

Superfund Amendments and Reauthorization Act of 1986 Title III (Emergency Planning and Community Right-to-Know Act of 1986) Section 313:

- This product contains the following substances which are subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and which are listed in 40 CFR 372.

| Component | CAS # | Weight (%) | SARA 313- Threshold values (%) |
|---------------|-------|------------|--------------------------------|
| No components | | | |

Section 16: Other Information

Drexel Chemical Company recommends that each customer or recipient of this SDS to study it carefully and consult appropriate expertise, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. The information herein is provided in good faith and believed to be accurate as of the effective date shown below. However, no warranty, express or implied, is given. Regulatory requirements are subject to change and may differ between various locations. It is the buyer's/user's responsibility to ensure that his activities comply with all federal, state, provincial or local laws. The information presented here pertains only to the product as shipped. Since conditions for use of the product are not under the control of the manufacturer, it is the buyer's/user's duty to determine the conditions necessary for the safe use of this product. Due to the proliferation of sources for information such as manufacturer-specific SDSs, we are not and cannot be responsible for SDSs obtained from any source other than ourselves. If you have obtained an SDS from another source or if you are not sure that the SDS you have is current, please contact us for the most current version.

Date Revised: November 9, 2017

Supersedes: February 1, 2016
